

Puppy Socialization / Exposure Checklist

A Socialization / Exposure checklist is a comprehensive list of items your puppy should be exposed to during the social period. The goal is to check as many items off the list as possible before your puppy is 16 weeks of age. Note, this isn't forcing your puppy into scary situations. This is letting them see / smell / experience at a distance that they do not show fear. Sounds may need to be played from a recording. There are spaces at the bottom to add some of your own.
